

**CROHN'S &
COLITIS UK**

Lower GI symptoms? Think Crohn's and Colitis.

Early diagnosis starts with a faecal calprotectin test.

Over 500,000 people in the UK are living with Crohn's Disease and Ulcerative Colitis, the two main forms of Inflammatory Bowel Disease. But it is taking too long for them to be diagnosed.

26%

Waited **more than a year** for their diagnosis.

41%

Visited **A&E at least once** before diagnosis.

Our earlier diagnosis campaign, including an online symptom checker, will encourage people to speak to you about their symptoms. Make sure you know how to spot the signs of Crohn's and Colitis.
